# PATENTED CARBON MICRO TECHNOLOGY

## DEEP CLEANING POWER FOR YOUR SKIN

The patented microtechnology, based on activated carbon and a non-toxic formula, represents a purely natural revolution for the effective removal of toxic and hazardous substances.

Developed for specialized use in the military, law enforcement, and security sectors, as well as for handling dangerous and toxic substances in laboratories and the metalworking industry.

This advanced formula eliminates microparticles, including chemical warfare agents, hazardous substances, gunshot residue, and industrial dust, with a cleaning efficiency of over 99%.

**It targets particles as small as 3 nm, ensuring an unparalleled deep cleansing effect, reaching even the smallest skin cells for ultimate decontamination.**

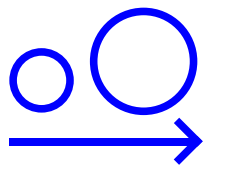

## GUARANTEED DECONTAMINATION

REMOVES PARTICLES DOWN TO 3 NM  
OVER 99% CLEANING EFFICIENCY

**Advanced Micro Tech – Gentle Skincare with Powerful Decontamination.** A safe and simple solution for professionals, hobbyists, and industries handling hazardous and harmful substances.

## NON-TOXIC & HIGHLY EFFECTIVE

DERMATOLOGICALLY TESTED  
PRESERVES THE SKIN'S NATURAL PROTECTIVE BARRIER  
SOAP-FREE & SURFACTANT-FREE

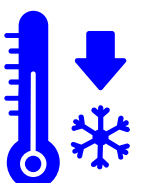

**Deep cleansing meets skin care.** Unlike harsh chemical alternatives, this formula gently cleanses without compromising the skin's delicate protective layer. Dermatologically tested and rated „excellent.“

## EASY APPLICATION

FOR DAILY USE  
EFFECTIVE EVEN WITH COLD WATER

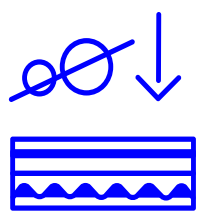

**Decontamination made simple.** Apply the black cream directly onto the skin—its color ensures full coverage. Simply rinse hands or shower for full-body cleansing. **Works even with cold water.**

## NO CROSS- CONTAMINATION

PREVENTS SECONDARY EXPOSURE  
VIA SKIN, INHALATION, OR INGESTION

Toxic substances spread through **skin contact, breathing, and ingestion.** Deep cleansing with DCP protects against **secondary contamination** from chemical agents, industrial dust, and other hazardous particles.

# ADVANCED MICRO CLEANING

FOR PROFESSIONALS IN HIGH-RISK ENVIRONMENTS

ELIMINATING TOXIC WARFARE AGENTS, EXPLOSIVE RESIDUES, FUNGI, AND MORE — COMPLETELY AND SAFELY. PRECISION. EFFICIENCY. TOTAL DECONTAMINATION.

**MILITARY & DEFENSE** – Removes chemical warfare agents and explosive residues.

**SECURITY & LAW ENFORCEMENT** – Effective against forensic residues like GSR (gunshot residue) and narcotic traces.

**LABORATORIES & RESEARCH** – Safeguards against toxic chemicals and biohazardous exposure.

**INDUSTRIAL & MANUFACTURING** – Eliminates metal dust, solvents, and hazardous byproducts.

**SAVE YOUR LIFE**

THE WORLD'S FIRST GEL THAT REMOVES 99%  
OF HARMFUL PARTICLES **DOWN TO A SIZE OF 3 NM.**
